Explanation of the Articles of the Calendar.

These pages are calculated for Toronto, Quebec, Fredericton and Halifax, and for ordinary purposes will serve with sufficient accuracy for every city in the Dominion of Canada.

MOON'S PHASES.—This Table gives the times for the four meridians when the moon passes the geocentric longitudes of 0°, 90°, 180° and 270° east of the sun. It gives also the times of her greatest and least distance from the earth.

TWILIGHT.—In this table are given the times at which twilight begins in the morning and ends in the evening, *i. e.*, the times when the sun's centre is 18° below the horizon.

GREATEST ELONGATION OF THE POLE STAR.—This column gives the greatest azimuth of the Pole Star east or west from the meridian as observed at a place in latitude 45°. When the greatest elongation corresponding to any other latitude is required, the number given in the column should be corrected by means of the following table.

Degrees of Latitude.....	42°	43°	44°	45°	46°	47°	48°	49°	50°
1st Correction for Degrees.....	−5' 58"	−4' 5"	−2' 5"	0' 0"	+2' 12"	+4' 32"	+6' 59"	+9' 34"	+12' 18"
2nd Correction for each minute of latitude.....	+ 1.9"	+ 2.0"	+ 2.1"	+ 2.2"	+ 2.3"	+ 2.5"	+ 2.6"	+ 2.7"	

The 1st correction for the degrees of latitude is to be subtracted from the greatest elongation given in the calendar, or added to it, according as the degrees of latitude are less or greater than 45°.

The 2nd correction, which is always additive, is found by multiplying the number given in the third line of the table by the number of minutes in the latitude.

Thus for latitude 43° 20'...1st correction = − 4' 5"	2nd correction + 2.0 × 20 = + 40"
" " 47° 40'... " = + 4' 32"	" " + 2.5 × 40 = + 1' 40"
" " 45° 10'... " = 0' 0"	" " + 2.2 × 10 = + 0' 22"

THE PLANETS.—The times of rising and setting of the five chief planets are calculated for Toronto, and are corrected for refraction. The times of culmination, although computed for the meridian of Toronto, will serve approximately for the whole of Canada. The meridian zenith distances, being designed merely to aid in finding the planets, have been given only to the nearest tenth of a degree, as seen from the latitude of 45°.

When the planetary day is shorter than the mean solar day, and commences soon after the midnight of the preceding day, the planet will sometimes arrive a second time on the meridian before the expiration of the actual civil day. From analogous causes a planet will sometimes rise twice or set twice in the same civil day. When two culminations occur in the same day, or two risings or settings, the times of both are registered.

The times of the SUN'S RISING AND SETTING are given for the upper limb, and are corrected for refraction for Toronto, Quebec, Fredericton and Halifax.

The civil times both for the rising and setting of the Moon's centre are given for every day for Toronto, Quebec Fredericton and Halifax.

The column SUN ON MERIDIAN gives the time that a watch should shew when the shadow of a sun dial is on the noon mark.

MOON'S AGE.—This column shews to the nearest tenth of a day the Moon's age at Toronto Noon.

The column, MOON ON THE MERIDIAN, gives the mean time at which the moon's centre passes the meridian of longitude 4 h. 46 m. W. When in the column headed Moon's rising or setting or Moon on meridian the letters A.M. occur, unaccompanied by any number, they denote that the numbers given for the succeeding days relate to the morning, and those for the preceding days to the afternoon, but that the Moon does not rise or set or cross the meridian (as the case may be) on that day.

The MOON'S MERIDIAN ZENITH DISTANCES are given to the nearest tenth of a degree for a point in latitude 45° and longitude 4 h. 46 m. W. They are not corrected for parallax or refraction.

The column, UPPER TRANSIT OF POLE STAR shews for every day the mean time at which the Pole Star makes its upper transit across the meridian of longitude 4 h. 46 m. W. It passes in the morning from April 9 to October 9, and in the afternoon for the rest of the year. On October 9 there will be a second transit, occurring at 11h. 56m. 52s. p.m.

The six last columns will serve with sufficient accuracy for the whole of Canada.

The time at which the lower transit of the Pole Star occurs may be found by adding 11 h. 58 m. 2 s. to the time of its preceding upper transit.

From the time of the upper transit of the pole star may be found the time of its greatest western or eastern elongation, by adding or subtracting the constants given in the annexed Table.

Star Table.

From the times of the upper transit of the Pole Star may be derived, with the aid of the following table, the times of culmination, and of the rising and setting of the principal fixed stars, as seen from the parallel of 45° north latitude.

To ascertain when any star found in the following table will be on the meridian, add the number in the left-hand column of figures to the preceding meridian transit of the pole star given in the calendar. To find the time of rising of a star, subtract the number opposite to it in the right-hand column of figures from the time of its meridian passage. For the setting of a Star, add the same number to the time of its meridian passage. Those stars marked (.....) revolve in a circle of perpetual apparition, and do not rise or set at places in and to the north of latitude 45°.

MATHEMATICAL DEPARTMENT.

The Publishers of the *Canadian Almanac*, desirous of encouraging the study of Mathematics in Canada, have resolved to re-open this department and devote a reasonable space to the advancement of this important branch of education. As the Problems in this issue are all original, having been constructed expressly for this publication, it is believed that their highly practical character will command the attention of an intelligent public.

Correspondents are invited to forward *original* Problems for insertion. All communications to this Department must be in the hands of the publishers, Messrs. Chewett & Co., on or before the 1st of July, 1869.

MATHEMATICAL PROBLEMS.

(1) A. can mow a field in 15 days by getting 7 days' help from B., and B. can mow it in 24 days by getting 2 6-7ths days' help from A. In what time would both working together mow it?

(2) What must a man ask for his farm which cost him \$3,520, so that after deducting $11\frac{1}{4}$ per cent. he may still gain $11\frac{1}{4}$ per cent on the cost?

(3) Required the area of a square field which is known to contain as many acres as there are rails in the fence enclosing it; the fence being eight rails high and having 16 rails to every rod in length?

(4) A. owes B. \$2,869, payable in 17 months. At the expiration of 5 months, A. wishes to make a payment so as to extend the time of the balance to 2 years. What amount must he pay?

(5) Two men purchase a circular race course one mile in diameter, and divide it by a line parallel to the diameter. Required the length of the dividing fence, so that one may have $\frac{2}{3}$ of the area, the other $\frac{1}{3}$?

(6) A Toronto merchant left to his five sons, whose ages are respectively 19, 17, 15, 11, and 5 years, \$179,497; to be so divided that the respective parts, being placed out at 5 per cent. simple interest, shall amount to equal sums when they become 21 years of age. Find each son's share.

(7) Find the side of the largest cube that can be cut out of a sphere 11 feet in diameter.

(8) Solve the equations (I.) $\sqrt{x} + \sqrt{b-x} = 2 \left\{ \sqrt{x} - \sqrt{b-x} \right\}$;

$$(II.) \left(\frac{x}{x+1} \right)^2 + \left(\frac{x}{x-1} \right)^2 = h(h-1); \quad (III.) \sqrt{\frac{n}{x}} = \sqrt{x} - \sqrt{n+x}.$$

(9) Through how many feet must a body fall in order to acquire a velocity of 291 feet per second?

(10) To what height must a person rise vertically in a balloon from Toronto so that he may see Rochester, 62 miles distant—supposing the Earth spherical and 8,000 miles in diameter?

(11) A promissory note is offered for sale on which is due \$24,3225 interest for one year at P per cent. simple interest. The owner of the note agrees to cancel the interest and sell it for \$23 less than the principal, which is at a discount of the above per cent. Required the amount of the note?

(12) Required the side of an equilateral triangle equal in area to a square whose side is 30 feet?

(13) A building lot is sold on the condition that \$1 50 shall be paid for every yard in length and \$1 25 for every yard in breadth. Find the dimensions, so that the purchaser may have the greatest amount of land possible for \$426?

(14) Divide \$208 among A. B. C. D. and E. so that A. may have one-third as much again as B. and one-seventh as much again as B. and C. together and one-eleventh as much again as C. D. and E. together?

(15) To what depth may an empty glass vessel capable of bearing a pressure of 216 lbs. to the square inch be sunk in water before it breaks?

(16) If a traction power of 97 lbs. is required to draw the forewheel of a carriage over an obstacle six inches high, what power will be required to draw the hind wheel over it—the diameters of the wheels being $3\frac{1}{2}$ and $4\frac{1}{2}$ feet respectively?

(17) Two men bought a farm in the shape of an isosceles triangle the base of which is 300 yards and each side 500. Required the area of each man's portion when it is divided by the shortest possible right line which can be drawn from one of the angles at the base to the opposite side?

(18) A boatman rows $6\frac{1}{2}$ miles down a river and up again in 182 minutes, the stream having a uniform current of $2\frac{1}{4}$ miles an hour. Find at what speed he can row in still water?

(19) A stone is weighed in a pair of scales which are known to be incorrect—when placed in one scale it weighs 71 3-7ths lbs., but being put into the other it only weighs 37 4-5ths lbs. Required its true weight!

(20) If a beam be 19 inches broad and 7 inches thick, how much more weight will it bear edgeway than broadway?

(21) A piece of square timber is 12 feet long, each side of the greater base is 11 inches, and each side of the lesser 5 inches. What length must be cut off from the lesser end to contain a solid foot?

(22) A. and B. are candidates at an election when 680 persons vote, and A. is defeated. The same electors vote the following year when A. and B. are again candidates, and A. is successful, having carried his election by 1 4-5th times as many votes as he before lost by, and his majority is to B.'s the year before as 5 is to 5 8-19ths. How many electors changed their minds during the year?

(23) A speculator borrows money at $3\frac{1}{2}$ per cent. interest payable yearly; he lends it at 5 per cent. interest payable quarterly, and gains thus \$160 65 in a year. How much does he borrow?

Red River letters 6 cents per ½ oz.; newspapers 2 cents each, or commuted rate if from Red River to regular subscribers in Canada.

MAILS FOR CANADA FROM ENGLAND.

Two Ocean Steamers carrying mails for Canada leave Liverpool in each week, viz. a Canadian Packet on every Thursday, via Derry on Friday, sailing to Quebec in summer and Portland in Winter, by which the Postage rate is 6d. stg. per ½ oz.; and a Cunard Packet every Saturday, via Cork on Sunday, bringing Mails for Canada to New York, by which the Postage rate to Canada is 7d. stg. per ½ oz.

A Canadian Packet leaves Liverpool every alternate Saturday for Halifax, calling at Queenstown en route. Postage 6d. stg. per ½ oz., same as by Canadian Packet to Quebec or Portland.

The British Post Office forwards letters to Canada by the first packet sailing after the letter is posted, unless the letters bear a special direction—"By Canadian Packet" or "By British Packet"—and in that case they are kept over for the Packet designated. "By Canadian Mail" is not a distinctive superscription; for any Mail for Canada is a "Canadian Mail," by whatever Packet forwarded.

WEST INDIES VIA NEW YORK.

West Indies (British) letters 10 cents per $\frac{1}{2}$ oz., newspapers 2 cents each. (Foreign) letters 22 cents per $\frac{1}{2}$ oz., newspapers 3 cents each. Books (British only) 2 cents per 4 oz.

Letters, &c., prepaid for transmission, via New York, are forwarded direct on New York with every mail made up for that Post Office; whence West Indian mails are despatched as follows:

For Havana and the West Indies, via Havana, every Thursday afternoon.

For St. Thomas, the West Indies, and Brazil, on the 23rd of every month.

Letters for the West Indies, British and Foreign, are also sent via Halifax and Bermuda; postage 12 cents per $\frac{1}{2}$ oz., newspapers 2 cents each.

REGISTRATION OF LETTERS.

Persons posting Letters containing value, should be careful to require them to be registered, and to obtain from the Post Master a Certificate of receipt for Registration.

The charge for Registration, in addition to the Postage, is as follows, viz.:

On Letters to any other place in Canada, or British North America 2 cents.
On Letters for the United States 5 "
On Letters for the United Kingdom 8 "
On Letters for British Colonies or Possessions, sent via England 25 "

On Letters for France and other Foreign Countries, via France, an amount equal to the postage rate.

On parcels, patterns, or samples, in Canada, 5 cents
On book packets and newspapers to United Kingdom, 8 cents.

Both the postage charge and registration fee must in all cases be prepaid.

Registration is not an absolute guarantee against the miscarriage or loss of a Letter; but a Registered Letter can be traced when an Unregistered Letter cannot, and the posting and delivery or non-delivery can be proven. A Registered Letter is thus secured against many of the casualties which, from incorrect address, forgetfulness of the receiver, or other error, may affect an Unregistered Letter.

Book Packets addressed to the United Kingdom may be registered on payment of the ordinary registration fee, viz., 8 cents in addition to the postage.

All book packets must be open at both ends or both sides to allow of the inspection of the contents.

MISCELLANEOUS CHARGES.

The charge on Parcels by the Parcel Post, which is limited to places within the Dominion, is 12½ cents per 8 oz. (with 5 cts. additional if Registered.)

One cent per oz., payable in advance by Postage stamp, is the rate on Printed Circulars (Printed Circulars, if sent in envelopes, whether sealed or unsealed, are liable to letter postage). Prices Current, Hand Bills and other Printed Matter of a like character, and on Books, bound or unbound, when posted at a Canadian Post Office addressed to any place in the Dominion of Canada, British North America generally, or the United States.

The postage upon Prices Current addressed to the United Kingdom is two cents each, which must be prepaid by postage stamps, or they will be sent to the Dead Letter Office to be returned to the senders.

NEWSPAPERS AND PERIODICALS.

Newspapers published in Canada may be sent by Post from the office of publication, addressed to any place in Canada, at the following rates, if paid quarterly in advance by either the publisher at the post office where the papers are posted, or by the subscriber at the delivering post office:

For a paper published 6 times a week, 30 cents per quarter.
" " 3 " 15 " "
" " 2 " 10 " "
" " 1 " 5 " "

When the above rates are not paid in advance by either publisher or subscriber, such Papers are charged one cent each on delivery.

TRANSIENT NEWSPAPERS.

Transient Newspapers—that is to say, Canadian Newspapers posted otherwise than from the office of publication, and American or British papers posted or re-posted in Canada, must be prepaid 2 cents each, by postage stamp, or they cannot be forwarded—except only British Newspapers distributed to regular subscribers by Canadian Booksellers or News Agents—such papers pass free as they would do if received in the Canadian Packet Mails.

NEWSPAPERS BY MAIL FROM ENGLAND OR UNITED STATES.

Newspapers received from England by the Canadian Packet Mails are delivered free.

Newspapers from England by the Cunard Packet Mails are charged 2 cents each on delivery. (This is the American transit charge.)

United States Newspapers, brought by mail into Canada, to regular subscribers, are charged one cent each on delivery, transient papers 2 cents each.

PERIODICAL PUBLICATIONS.

The rate on all Periodicals, other than Newspapers, passing by mail in Canada, save such as may be addressed to or received from the United Kingdom, is one cent per $\frac{1}{2}$ oz. weight of package containing periodical matter, whether the package contain one or more numbers.

Any fraction of 4 oz. to be charged as a full rate.

After 31st December, 1868, no periodicals whatever, except exchanges, (i. e. periodicals passing between publishers in Canada, and between publishers in Canada and publishers in the United States, Prince Edward Island, or Newfoundland) will be entitled to exemption from postage.

Transient Periodical matter posted in Canada must in all cases be prepaid by Postage Stamp.

The above rate will be payable on delivery on all Periodical matter received from the United States, except that Canadian Editors may receive Exchange Periodicals from the United States free of Canadian Postage.

Periodicals, printed and published in Canada, may be posted addressed to any place in the United Kingdom by Canadian Packet, on prepayment by Postage Stamp of two cents each number.

No package of periodicals can be sent through the Post, if it exceed 4 lb. in weight.

POSTAGE RATES ON MISCELLANEOUS MATTER.

Patterns or samples of merchandise and goods for sale, not exceeding 24 oz. in weight, may be posted in Canada to be forwarded to any place within the Dominion, on prepayment by postage stamp of a rate of 1 cent. per ounce, under the following regulations:

Patterns or samples must be sent in covers open at the ends, so as to be easy of examination. Samples however of seeds, drugs, and so forth, which cannot be sent in open

covers may be enclosed in bags of linen or other material, fastened in such a manner that they may be readily opened; or in bags entirely closed, provided that they be transparent, so that the officers of the Post Office may be able to satisfy themselves as to the nature of the contents.

The Packet may bear on the *outside* the address of the sender, in addition to the address of the person for whom it may be intended; also a trade mark and numbers, and the price of the article enclosed; *inside*, there must be no enclosure but the samples or patterns themselves; the particulars however of the trade marks, numbers and price, may be marked on the articles themselves, instead of on the outside of the Packet, at the option of the sender.

Any sample or pattern Packet containing a letter, or otherwise violating the conditions of the preceding rules, will be rated and treated as a letter.

The rate of one cent per ounce is to be pre-paid by postage stamp, and, if such rate be not fully pre-paid by the stamps affixed, the Packet is to be rated with the deficient postage and a fine of five cents in addition.

Packets of samples and patterns may be registered on pre-payment by postage stamp of a registration fee of 5 cents in addition to the postage rate, and provided such Packets be duly handed in to the post office for registration.

No Packet of samples or patterns must exceed 24 oz.

These regulations apply only to the transmission of Packets of samples and patterns within the Dominion of Canada, and will not in any manner interfere with the regulations governing the exchange of samples and patterns with the United Kingdom, or with the foreign countries to which the same advantage extends, namely, France, Belgium, Italy, German States, Netherlands, Portugal, Switzerland, and Denmark.

No provision as yet exists for the exchange of such matter with the other British Colonies, with the U.S. or with other foreign countries than those above named.

Book and newspaper manuscript, and printers' proof-sheets (whether corrected or not), maps, prints, drawings, engravings, photographs when not on glass or in cases containing glass, and sheet music (whether printed or written), may pass in covers open at the ends or sides, and provided that no letter, or other communication intended to serve the purpose of a letter, be enclosed therein, on pre-payment, when posted in Canada, by postage stamp of the ordinary printed matter rate of one cent per ounce; or upon payment of that rate on delivery of such matter when received in the mails from the United States.

POSTAGE OF BOOKS, PATTERNS AND SAMPLES.

Patterns of merchandise, and samples, may be forwarded between Canada and the United Kingdom, France, Italy, German States, Netherlands, Portugal, Switzerland, and Denmark, by the Canadian Packet mails, at book post rates, and subject to the following conditions:

There must be no writing or printing other than the address of the person for whom the packet is intended, the manufacturer's or trade mark and number, and price of the article.

Any infringement of the above regulations will render the packet liable to be treated and charged as a letter.

Samples of seeds, drugs, and similar articles intended for delivery within the United Kingdom, are now allowed to be sent in bags entirely closed, provided such bags be transparent, so that the officers of the Post Office may be able to satisfy themselves of the contents.

The rule which prohibited the transmission through the Post, as patterns, of articles of cutlery, &c., has been rescinded; and scissors, knives, razors, forks, steel pens, nails, keys, watch machinery, metal tubing, pieces of metal or ore, and such like articles, are now allowed to be forwarded by the Post as samples, provided they be packed and guarded in so secure a manner as to afford complete protection to the contents of the mail bags, and to the persons of the officers of the Post Office. Such articles, however, must be so packed that they may be easily examined; and it is made a rule that any packet containing such articles, which may be found to be insufficiently guarded, shall not be forwarded through the Post.

None of the articles named in the next preceding paragraph may be sent as patterns or samples to any place abroad, except Germany, Belgium, and the British Colonies, and not to these places when addressed *via* France.

PATTERNS, LIMIT OF SIZE AND WEIGHT.

The limits of weight and size are as follows:—

If for Canada, 24 oz.; the United Kingdom, 24 oz.; France, 36 oz.; Germany, 8 oz.; the Kingdom of Italy,

36 oz.; Belgium, 8 oz.; the Netherlands, 16 oz.; Portugal, 16 oz.; the Azores, 16 oz.; Madeira, 16 oz.; Denmark, 48 oz.; Switzerland, 48 oz.

If for Canada or the United Kingdom, 24 inches in length and 12 inches in breadth or depth. If for France, Portugal, the Azores, or Madeira, 18 inches in length and 12 inches in breadth or depth. If for Germany, the Kingdom of Italy, Belgium, the Netherlands, Denmark, or Switzerland, 24 inches in length and 12 inches in breadth or depth.

Any infringement of the conditions laid down as above will render the packet liable to be treated and charged as a letter.

Bags entirely closed, even though they may be transparent, must not be used for the transmission of seeds to foreign parts.

No prints or printed matter will be allowed to pass by book post between the United Kingdom and Canada, unless printed on paper, parchment or vellum.

For Orders up to	£5	-	-	-	-	25 cents.

The Money Order Post Offices are furnished with Lists of all the Money Order Offices in the United Kingdom, Ontario, Quebec, Nova Scotia, New Brunswick, Prince Edward Island, and Newfoundland; and the Postmasters are instructed to afford every information in their power, in respect of the places upon which they draw, together with any other information relating to such issues as the intending Remitters may desire.

POST OFFICE SAVINGS BANKS.

The Post Office Savings Banks, established by statute in the last session of Parliament, commenced operations in Ontario and Quebec on the 1st April, 1868.

The direct security of the Dominion is given by the statute for all deposits made.

At each Savings Bank Post Office the regulations may be read by the public, giving full information with respect to the mode of depositing and withdrawing money, and these regulations are printed on the cover of the Pass Book supplied to each depositor.

Any person may have a deposit account, and deposits are received daily, during the ordinary hours of Post Office business, of any number of dollars, from \$1 up to \$300, the total amount which can be received from a depositor in any one year, except in cases to be specially authorized by the Postmaster General.

The Postmasters of Savings Banks will act as agents for the receipt of the money deposited for transmission to the Postmaster General, and for the payment by the Postmaster General of money withdrawn by depositors.

Each depositor is supplied with a pass book, and the sums paid in, or withdrawn, are entered therein by the

Postmaster receiving or paying the same. In addition, a direct receipt for each amount paid in, is sent to the depositor from the Postmaster General, and the Postmaster General will issue a cheque, payable at any Post Office Savings Bank desired, for any sum withdrawn.

Every depositor's account is thus kept with the Postmaster General, and a depositor may pay into his or her account with the Post Office Savings Bank, at any of the Savings Bank Post Offices which at the time may best suit his convenience, and may exercise the same choice in drawing out money, subject only to the obligation of producing the pass book, in proof of identity—whenever paying in or drawing out money.

Interest at the rate of 4 per cent. per annum is allowed on deposits lying in the ordinary deposit accounts, but when a depositor has \$100 deposited, he or she may request the Postmaster General to transfer this sum to a special account, and will then receive a certificate of such special \$100 deposit, bearing interest at 5 per cent. per annum.

Postmasters are forbidden by law to disclose the name of any depositor, or the amount of any sum deposited or withdrawn.

No charge will be made to depositors on paying in, or drawing out money, nor for postage on communications with the Postmaster General in relation thereto.

The Postmaster General will be always ready to receive and attend to all applications, complaints, or other communications addressed to him by depositors or others, relative to Post Office Savings Bank matters.

Additional Post Offices will from time to time be authorized to act as Savings Bank agencies.

POSTAGE STAMPS.

Postage Stamps are provided for sale of the respective values of 1 cent for Newspapers; 2 cents for Prices Current and Periodicals for the United Kingdom; 3 cents for ordinary Dominion Letters; 6 cents for United States rate; 12½ cents for Canadian Packet; and 15 cents for Cunard Packet.

Their jurisdiction extends to actions of debt or contract amounting to £25; injuries or torts to personal chattels amounting to £10; and personal actions to that amount, if not excepted from their jurisdiction; but not to actions for gambling debts, liquors drunk in a tavern, or notes of hand given therefor, ejectment, title to land, &c., or any toll, custom or franchise, will or settlement, malicious prosecution, libel, slander, crim. con., seduction or breach of promise, or actions against a J. The same act which established the Medical Council authorized the publication of a list of the persons who were legally entitled to practice medicine in the Province of Ontario. This list is called the Medical Register for Ontario; and no person, whose name does not appear in that Register, is entitled to charge for any advice, or for any medicine which he shall have both prescribed and supplied. No one can collect fees in court for advice in either medicine, surgery, or midwifery, unless he be registered according to law, and his name be in the "list" of the current year. Nor can any unregistered person be appointed as medical officer, physician or surgeon in any branch of the public service, militia or otherwise, or to any hospital or other charitable institution not supported wholly by voluntary contributions; neither can any unregistered person give evidence (of a professional nature) before any coroner's or other court; nor is a certificate of lacy valid from an unregistered person, nor any other certificate which the law requires from a physician or surgeon. Any person can obtain the "list" or "register" referred to by applying to the Registrar of the Medical Council—Dr. Strange of Hamilton—who will also give information upon the necessary steps to be taken to secure the registration of diplomas, and send forms for certificates, upon application.

THE STANDARD LIFE ASSURANCE COMPANY, WITH WHICH IS NOW UNITED THE COLONIAL LIFE ASSURANCE COMPANY.

HEAD OFFICE—EDINBURGH, SCOTLAND.

CANADA HEAD OFFICE—MONTREAL.

Manager—W. M. RAMSAY.

| Inspector of Agencies—RICHARD BULL.

THIS Company was established in 1825, and is one of the largest and most successful of the Life Assurance Institutions of Great Britain. Its income exceeds £700,000 Sterling per annum, and its Accumulated and Invested Funds amount to upwards of Four Millions Sterling. Its profits have been very large, and persons assured have derived very valuable benefits from their connection with the Company. The STANDARD has also acquired a marked character for liberal management, being the first Institution which relieved Policies of Assurance from restrictive and unnecessary conditions, and gave such contracts increased value and stability in other ways.

THE RATES OF THE COMPANY

which have been calculated on data derived from the most authentic sources, will be found moderate, and, looking to the facilities and advantages afforded, they are undoubtedly more advantageous and less expensive than those of any other Office transacting the same class of business.

Every information as to Life Assurance, with Tables of Rates, will be furnished at the Head Office, or at any of the Agencies of the Company.

Invested Funds upwards of \$6,000,000.

THIS Institution differs from other Life Offices in that the BONUSSES FROM PROFITS are applied on a special system for the Policy-holders PERSONAL BENEFIT AND ENJOYMENT DURING HIS OWN LIFETIME, with the option of Large Bonus Additions to the Sum Assured.

The Policy-holder thus obtains A LARGE REDUCTION OF PRESENT OUTLAY, or A PROVISION FOR OLD AGE OF A MOST IMPORTANT AMOUNT IN ONE CASH PAYMENT, OR A LIFE ANNUITY, without any expense or outlay whatever beyond the ordinary Assurance Premium for the original Sum Assured, which remains intact for the Policy-holder's heirs, or other purposes.

**SAMSON BARNETT, 23 Forston Street, Hoxton, London, N.**

FROM 30 years' manual practice in the above branch, and having constructed most of the Machines now at work in various parts of the world, is enabled to offer the most complete and durable machinery, and by confining his manufactory to only two branches, namely, SODA WATER MACHINES and DIVING APPARATUS, and his whole attention being given to these branches, it must be obvious that every part has been the subject of his most careful study, so that any derangement of parts can hardly occur. All the Machines made by S. BARNETT are constructed under his own superintendence, and proved to four times the pressure they are ever required to be worked at. S. B. being so well aware of all the requirements of persons using Machinery where mechanical assistance cannot be obtained, has paid full attention to this point, as the great number of testimonials in his possession will prove. He has also lately introduced larger condensers, and more powerful frames than those previously in use, while his prices have not been increased.

British & Foreign Importing House,

48 & 50 YONGE STREET, TORONTO.

455 St. PAUL STREET, MONTREAL.

We are frequently asked for "a Comprehensive Catalogue" of our stock by merchants who have but a faint idea of the immense variety of which our stock consists, and the perpetual changes to which it is subject by additions of the newest designs in all articles of taste or utility, from all parts of the world. A catalogue would be no sooner issued than the arrival of the first steamer would make it incomplete. We therefore issue no complete catalogue, *it would be an absolute impossibility*; but we say to all our business friends in the Dominion, *take a day or two among our samples, either in Toronto or Montreal, and if you can't make it pay, we shall make good the loss.* We shall endeavour to mention some of the articles which we supply that are suitable to the general trade, and from which merchants in any part of the Dominion may select with the certainty of a ready sale, if the fault be not their own.

1st. We are directly interested in manufacturing the following:—

SOLID STERLING SILVER PLATE, viz.: *Spoons, Forks, Cups, Napkin-Rings, Tea Sets, Trays, or any other article to order.*

PLAIN GOLD JEWELLERY, viz.: *Wedding Rings, Keepers, Diamond Rings, or any articles of solid gold Jewellery, to order.*

SILVER JEWELLERY, viz.: *Silver Rings, plain or fancy, Thimbles, Masonic Jewels, Bages, or other articles, to order.*

GOLD PENS AND CASES, all stamped "Canada Pen Company," including the new *perpetual fountain pen*—these are better and cheaper than any imported.

2nd. We are Sole Manufacturers' Agents, and Supply at Factory Prices, the following (charges added):—

SHEFFIELD ELECTRO-PLATE WARE, viz.:—*Spoons, Forks, Knives, Cruets, Baskets, Cups, Trays, Waiters, Tea-Sets, Kettles, Table Bells, Patent Butter-Coolers, Wine-Coolers, Pitchers, Liqueurs, and all articles in this line.*

SHEFFIELD CUTLERY, viz.:—*Ivory Table Knives, Bone do., usual Scale-tang Knives, and Forks, Carvers, Steels, Moites (for children), Butter Knives and Pocket Cutlery of every possible style and price.*

NICKLE SILVER SPOONS AND FORKS—These now well-known goods, stamped R. W. & Co., are superior to anything imported, and lower in price. **CONNECTICUT CLOCKS**, viz.:—*Seth Thomas, Waterbury, Gilbert, Ansonia, Welsh and Newhaven*, these we supply in *One Hundred Styles*, and hold the largest consignments west of New York city. (Prices and Catalogues supplied).

AMERICAN WALTHAM WATCHES—These we supply to the Trade in Canada at the absolute gold value of the Factory Prices, the *Company paying the duty*; they are in great variety of prices and styles, from two to five ounce cases in silver, and from two to four ounce in gold, any Merchant who will buy a dozen can deal in these Watches, for they are all in running order, and all warranted.

ENGLISH WATCHES, of none but the best grades in Gold and Silver Cases, all marked "Canada Watch Co., London;" those who want genuine London Watches can depend on these.

ENAMELED LOOKING-GLASS PLATES—This Plate is very much superior to the old style, and the glass is white and clear, and no breakage usually.

3rd. We import largely, and direct from the several markets of Europe or elsewhere, thereby commanding the greatest advantages, the following partial list:—

ALBUMS, BEADS, BUTTONS, BELTS, BRIAR ROOT PIPES, BAROMETERS, BASKETS, BALLS, BIRD CAGES, BRUSHES, BRITANNIA METAL WARE, BRONZES, BREAD-PLATTERS, FRENCH CLOCKS, in Gilt, Marble, Alabaster and Ebony. Terms Liberal, and a Good Discount for Cash.

The Watch Factory at Waltham, Mass.

EVERY SIXTH MINUTE in the working day A FINISHED WATCH MOVEMENT is the average production of the above Factory. Yet, at this enormous rate of manufacture, the Company can but barely supply the demand. They have already produced almost

HALF A MILLION OF WATCHES,

Most of which are now in the pockets of the people, testifying to their superior merits as time-keepers. They are now almost exclusively used on

ALL THE LEADING RAILWAYS,

Where they are found to run with perfect accuracy, in spite of the constant *jar*, which so much affects ordinary watches.

SHIP CAPTAINS AND OTHER OFFICERS,

Who are frequently absent on long voyages, prefer *The American Watch* to any other, as they are not perceptibly affected by change of climate, and do not require frequent regulating. The story of the twenty-five dollar "Ellery" watch that was carried five years by a soldier in the Army of the Potomac, and that varied **One Minute and a half in that time, without Care or Cleaning**, could hardly be told of any other watch of the price that ever was made. **TO LUMBERMEN, these Watches are of Great Value**, not being liable to stop or get out of repair during their months of absence in the woods.

THEY ARE ADMIRABLY ADAPTED FOR PRESENTATION,

as the movements are not only reliable, but the cases in gold are rich and handsome and of guaranteed fineness. Thousands of these watches are now worn in Canada—every day they are becoming more popular. Very soon they will be **the only watches sold in any quantity in the Dominion**. Buyers should always require the **Guarantee** of the Company with each watch, to *avoid being imposed upon by spurious Swiss imitations*. These watches may be ordered through any Jeweller in the Dominion in gold or silver cases, for Ladies or Gentlemen; or, in districts where there are no watchmakers, we supply them to general merchants by the dozen. To the wearer they are the cheapest watches in the world!!
